## FEATURED PRODUCT

Sterile Sodium Chloride  
with a **Twist Top!**

### Features

**60ml Bottles - Non-drip  
No-spill Design**

**Compact with Twist Top  
Design**

**Non-Resealable Bottle**

**Optimum Bottle Size**

### Benefits

- Prevents fluid from running down the side of the bottle and compromising it's sterility.
- Controlled pressure for 60 ml dispensing from a steady, forceful stream to a gentle measured drop by drop, pressure 4 to 15 PSI.
- More efficient. Less product to be used to support wound cleansing procedure.
- Prevents reuse after procedure is complete. Reduces the threat of cross contamination associated with large pour bottles, important for Infection Control.
- Less plastic waste-environmentally friendly.
